

Edinburgh College of Art Degree Show 2016

Recently, a number of our pupils, from S2 through to S5, participated in a visit to ECA Degree Show. The trip was a real success as our pupils were able to consider what creativity was and what it looked like and to challenge their own perceptions of this. It also allowed them to gather information and ask questions about the college as a possible future destination, with some of our pupils asking a range of questions of the students. The group were treated to a number of sessions with the Jewellery and Silversmithing department, during which the design process was explained. Our pupils left enlightened and excited about the possibilities for their own work!
